

MAROON SPOON

USE WITH A PERSON WHO:

- Needs **full assistance** feeding
- Has **difficulty closing their lips** together or **weak muscles** in their mouth
- Can only take **small mouthfuls**

THIS WILL HELP THE PERSON:

- **Take food or drink** as the spoon is more shallow
- A **normal teaspoon** can also be used to make feeding safer

ONE -WAY STRAW

USE WITH A PERSON WHO:

- Needs **little assistance** feeding
- Is able to **close their lips** together
- **Gets tired** easily or has **weak muscles** in their mouth

THIS WILL HELP THE PERSON:

- Drink with **less effort** as the drink will stay **in the straw between sips**
- Control the **amount of drink in their mouth**

CUT OUT CUP

USE WITH A PERSON WHO:

- Needs **little or no assistance** feeding
- Is **able to drink from a cup**
- Is **unable to lift** their head up

THIS WILL HELP THE PERSON:

- Drink from a cup **without having to tilt their head back** without the cup hitting the person's nose
